

Healthy Youth Survey (2006)

Who is Eligible to Receive a Local Report?

To receive a local report in spring 2007 at a given grade, all of the following qualifications must be met at that grade:

Individual School

Valid surveys are completed by at least 15 students.

The school did not decline to receive school-level results.

Note:

- School reports will be sent to the district superintendent for dissemination.

Small-School Consortium

Valid surveys are completed by at least 15 students in the consortium as a whole.

Notes:

- Schools in a small-schools consortium will not receive individual school results even if they have valid surveys from 15 students.
- Only one report will be sent to the individual identified as the consortium coordinator.

District

Valid surveys are completed by at least 15 students in the district as a whole.

Valid surveys are completed by students at 3 or more schools in the district; **or**

Valid surveys are completed by students at 2 schools, each of which contributes at least 15 valid surveys.

Valid surveys are completed by at least 70% of the students enrolled in the district according to the most recent OSPI enrollment data.

Notes:

- If valid surveys are completed by less than 70% but at least 40% of the enrolled students, the district will receive a *Report of Participating Schools*, which includes district response rates and caveats to use of the data from the Department of Health at some time after the local reports are released.
- If valid surveys are completed by fewer than 40% of enrolled students, a *Report of Participating Schools* will be created and stored electronically at the Department of Health. This report will be released to the district only by request and in conjunction with technical assistance for interpreting the report at some time after the local reports are released.
- District reports will be sent to the district superintendent for dissemination.

County or ESD

Valid surveys are completed by at least 15 students in the county or ESD as a whole.

Valid surveys are completed by students in 2 or more districts in the county.

Valid surveys are completed by students at 3 or more schools in the county or ESD; **or**

Valid surveys are completed by students at 2 schools, each of which contributes at least 15 valid surveys.

Valid surveys are completed by at least 70% of the students enrolled in the county or ESD according to the most recent OSPI enrollment data.

Notes:

- If valid surveys are completed by less than 70% of the enrolled students, the county or ESD will receive a *Report of Participating Schools*, which includes county or ESD response rates and caveats to use of the data, from the Department of Health at some time after the local reports are released.
- For counties where a county sample was drawn at a given grade, the enrollment and number of valid surveys are based on students in the sampled schools only.
- County reports will be sent to the sponsoring state agencies for dissemination.
- ESD reports will be sent to the ESD superintendent for dissemination.

Note. Eligibility criteria are the same in 2004 and 2006.
